Profile Summary

Entry-level Java Developer with hands-on experience in building web applications using Core Java, Spring Boot, Spring MVC, JDBC, and MySQL. Strong in CRUD development, MVC architecture, and backend logic with a focus on writing clean, maintainable code. Seeking a Junior Java Developer role to contribute to backend and REST-based application development.

Education

Kallam Haranadhareddy Institute of Technology (KHIT) — Guntur
B.Tech in Mechanical Engineering – CGPA: 7.98/10 — Dec 2021 – Mar 2024

St. Mary's Group of Institutions — Chebrole
Diploma in Mechanical Engineering – 73.72% — Jun 2016 – Sep 2021

NCRNM High School — Tenali
SSC – CGPA: 6.8/10 — Jun 2015 – Apr 2016

Technical Skills

Programming Languages: Java (OOP, Collections, Exception Handling, Multithreading)
Backend Technologies: Core Java, JDBC, Servlets, Spring Boot, Spring MVC
Web Technologies: HTML, CSS, Bootstrap, JavaScript, JSP
Database: MySQL
Server / Tools: Apache Tomcat, Eclipse IDE, Maven, Git.
Methodologies: Agile, Scrum

Projects

Airline Reservation System | Java, JSP, JDBC, MySQL | **GitHub**

- Developed a web-based airline reservation system using Java, JSP, JDBC, and MySQL following MVC architecture.
- Implemented features such as user authentication, flight search, ticket booking, and reservation management.
- Designed relational database schema and integrated using JDBC with prepared statements.
- Handled server-side validations and SQL exception handling to ensure data consistency.
- Built DAO layer for modular data access and deployed application on Apache Tomcat server.

Polling Web Application | Java, Spring Boot, MySQL | **GitHub**

- Built a CRUD-based web application using Spring Boot, Spring MVC, JSP, and MySQL.
- Implemented Controller, Service, and DAO layers for clean separation of concerns.
- Integrated MySQL using JDBC with input validation and centralized exception handling.
- Used Maven for dependency management and deployed on Apache Tomcat.

Certifications

Java Full Stack Development — V CUBE Software Solutions PVT. LTD.
Full Stack Java Training Program — Jul 2024 – May 2025
